

DiscPlier™ Hose Clamp Tool
Another tool from Simonds Inc. for installing clamps
with a front load.

Simonds Inc. makes pneumatic hose clamp tools for constant tension wire and band clamps. Along with the side loading tool, Simonds has manufactured pliers type and 90° pneumatic hose tools. As with all Simonds manufactured tools, our team of engineers can design tools to fit specific needs on your production line. Anything from longer extensions to precise angles, Simonds will work to make your job easier.

One Tool For A Variety Of Clamp Sizes

Simonds Inc. incorporates the same ergonomic design in this Hose Clamp Tool as it does with other Simonds tools. The ergonomic design helps to relieve repetitive motion disorders, increase production and reduces operator fatigue.

Using the tried and tested design that Simonds Inc. has spent years developing, this Hose Clamp Tool will stand up to many years of work on the production line.

Developed for use in the Automotive, Aerospace, Marine, RV and White Goods markets. This tool will speed up the installation of tension band hose clamps on the production line and in the field.
